FEE THANKS FOLLOWERS

The JJC Board elections are history and I personally wish to thank every student and faculty member who was involved in our campaign. We must realize that the combined efforts of the Concerned Citizens for Better Education in perfect co-ordination with the American Federation of Teachers Union Local 604 were extremely successful. The primary objective of the entire race was to defeat the incumbents. We all hoped and prayed that we would unseat at least one. Our efforts proved strong enough to unseat two. The students and faculty of our campus played the major roll in electing Robert Kiep and A.A. "Fizz" Wills to their positions. Most important, however, is the fact that they are sympathetic to us as students. Both candidates expressed their indebtedness to us and our hard work.

On every occasion that I personally spoke to a public audience, I made a point of expressing the fact that we have a great caliber of people on the student and faculty level. I could not have meant that any more. My wife, Diane, our son Scott, and I are personally indebted to you people who worked so hard. Two months ago, a good number of the Concerned Citizens and AFT members didnt even know me. Yet, students and teachers stood through a rainstorm and freezing weather for 2 hours in support of our campaign. I have never been so proud to be a part of any group of people in me entire life. I thank you.

Respectfully,
Thomas M. Fee

Dear Sir:

I would like to take this opportunity, on the eve of the JJC trustee election, to express my pride in an institution where students are privileged to participate directly in the democratic process of electing people to office--even though most of these same students have not been given the franchise. LETTERS TO THE EDITOR

(continued from page 1) comes through books, dummy elections, or observations of the process on various political levels. Seldom does the opportunity present itself wherein students can participate directly in the attempt to elect two of their contemporaries. Whether or not one supported these young candidates is of little consequence when you measure the worthwhile experience that our young men and women at JJC received during the present campaigning. Those people who encouraged them, those who evaluated what was being done in order to help guide them, deserve credit and congratulations. I cannot give the former, but I can say thank you from one, rather proud,

Instructor of Speech,
Robert A. Mallary

"Could you love two girls at the same time?" "Sure, if I was sitting in the middle."

A girl who sits on mens laps may be held over for popular requests.

"Why dont you go home?" "My wife's mad at me and locked me out." "What's she mad about?" "Because I dont go home."

"My friend has a bouncing baby boy." "How do you know?" "I dropped it." "What's its name?" "I dont know, I cant understand a word it says."

Wouldnt it be great if all topless go-go girls went around on pogo sticks?

editorial

The Juco election is over and most people have had their say about it. Why should the SSS be any different? First, I'd like to personally say that working for Tom Fee was not only the greatest privilege and accomplishment in my life, but probably the only real accomplishment. As for Tom and the campaign, its not really whether you win or lose, or even how you play the game; its whether you played the game at all. A fine effort from all involved has brought grassroots politics to the people and has laid the foundation for future endeavors which will make the people's voices heard.
